

## **CONTINUING AND PROFESSIONAL EXECUTIVE TRAINING WORKSHOP ON THE EMERGING ISSUES IN PROCUREMENT AND SUPPLY CHAIN MANAGEMENT: ETHICS, GOVERNANCE AND LEADERSHIP**

### **Brief Background**

CARISCA seeks to address key barriers to development caused by deficiencies in Ghana's and Africa's supply chain system. With support from the United States Agency for International Development (USAID), CARISCA is dedicated to capacity building to reduce supply chain management skills gap in Ghana and Africa.

### **Objective of the Training Workshop**

The purpose of this training workshop is to provide dynamic learning opportunities for procurement and supply chain practitioners and professionals in Ghana to upgrade their ethical, governance and leadership skills **in today's procurement and supply chains environment.**

### **Why Participate in this Training Workshop?**

The focus of this training workshop is to explore ethical, governance and leadership tools and strategies that procurement and supply chain practitioners and professional need to achieve success in their organizations.

### **What participants will learn**

This training workshop will provide participants opportunity to develop:

- skills required to address ethical and governance challenges in procurement and supply chain management (PSCM)
- capacity to develop and execute strategies to prevent, detect and respond to procurement and supply chain related fraud and corruption
- leadership skills required in directing procurement and supply chain management function for high performance and
- knowledge on governance strategies for building responsible procurement and supply chain structures

## Training Outcomes

At the end of the training workshop, it is expected that participants will be able to:

- deploy the skills for managing ethical challenges in PSCM successfully
- prevent, detect and respond to incidence of fraud, corruption in PSCM; and
- demonstrate leadership skills and strategies for building responsible PSCM operations
